Test Document - Page 1

Materials

Brass - A copper-zinc alloy with good machinability

Steel - Iron-based alloy with carbon content

Aluminum - Lightweight metal with good corrosion resistance

Properties

Temperature resistance up to 500 degrees

Pressure rating: 100 bar maximum

Test Document - Page 2

Certifications

ISO 9001 Quality Management

ISO 14001 Environmental Management

CE Marking for European Compliance

Applications

Industrial valves and fittings

Hydraulic systems components
